

Having an eye exam

Christine goes
to her optometrist
every two years.
She has an eye exam.

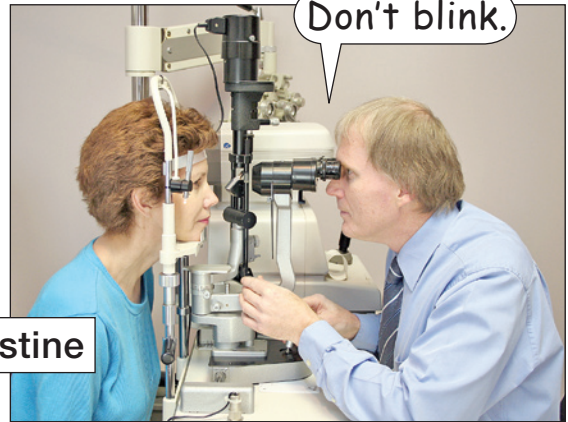

What does the optometrist do?

Any problems
with your eyes?

1 Dr. Hensel asks Christine some questions.

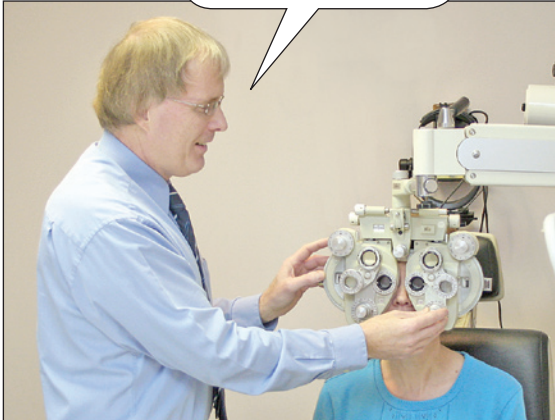

Don't blink.

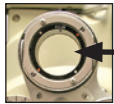

2 He looks at her eyes.

 [More on page 2](#)

Is this better or worse?

- 3** He uses a machine with many lenses.

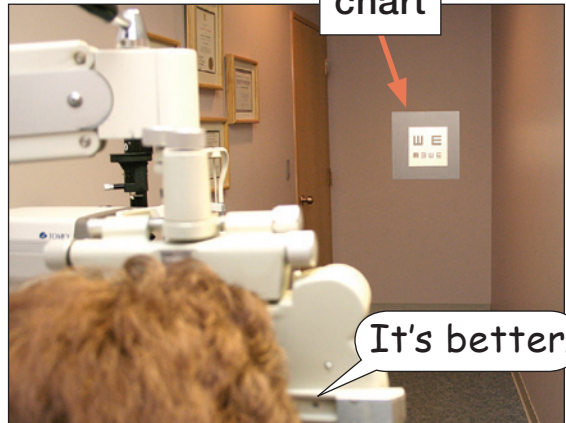

lens

Your eyes look good.

- 5** Dr. Hensel puts drops in Christine's eyes. He looks for eye diseases. For example: glaucoma.

chart

- 4** Christine looks through the lenses. She reads a chart.

Here's your prescription.

- 6** Christine needs glasses. Dr. Hensel gives her a prescription.

When was your last eye exam?
