

Plant pansies in a pot

Plant pansies in the spring. They like cool weather.

What will you need?

a pot with holes

pansies

potting soil

Photos: Bev Burke • Art: Nola Johnston

How to plant

1 Put some potting soil into the pot.

2 Remove the pansies from their pots.

[More on page 2](#)

3 Put the pansies on top of the soil.

4 Put soil around the roots.

Leave space at the top of the pot.

5 Press down the soil.

6 Water your pansies.

Tips

- ✓ Pinch off old blooms often.
- ✓ Fertilize once a month.
- ✓ Pansies like sun or part shade.
- ✓ Cover pansies if it will be -4°C or colder.
