

Reader's story

My English class did a project about Wood Buffalo National Park.

Don

Wood Buffalo National Park

- ✓ Wood Buffalo National Park is a World Heritage Site.
- ✓ The park is very close to us.
- ✓ We get to see a lot of wildlife.

Our project

We got to pick any animal or bird that lives in the park. We had to research what the animal eats and where it lives.

The North can be very cold. We had to find out how the animal could survive the long winter.

We picked animals such as:

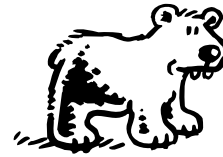

■ moose

■ bison

■ wolf

■ bear

These animals are protected from hunters in the park.

We put this information into pamphlets for tourists.
