

Reader's story

I love dogs

I like animals. No, I will change that to “love.” I have five dogs as pets.

One of my dogs is a kind of dachshund. The others are types of Yorkshire terriers. They weigh about 2 kilograms (4½ pounds) each. I think they are very cute.

Sometimes, like humans, my dogs burp or break wind without a sound, and surprise the family.

Sometimes I come home at night, and my family is asleep. The dogs are awake, and they welcome me home.

When I don't feel well, the dogs come to me and cheer me up. I hope the dogs live healthy, happy, long lives with me and my family.
