

## **Anecdotal Report**

Learner: John Q

Recorder: Nancy

Date: March 26<sup>th</sup>

Please include incidents or stories that demonstrate positive changes happening for the learner. These stories will help your supervisor with the CALP annual report.

### **What did the learner say or do that was significant?**

John came into class today and took off his hoodie. He even engaged in the conversation!

### **How is this different from what you've observed in the past?**

Every class since the first week, John has sat with his hoodie on and the hood over his head. He rarely gave more than a one or two word answer.\*

*\*This example shows increased confidence and program relevance (John was comfortable enough to take off his hoodie and found the learning important/relevant enough to engage). These are reportable measures on the CALP annual report.*
